Bridge

Help the Older Adults who Low Cost to Connect with Their Families

Problem

Over 1500 people are unable to afford internet services, which is a barrier to accessing essential services like telehealth, job training, and social media.

Audiences

Older adults (65+) who are on a fixed income and struggle to afford internet services. They often lack the technical skills to use low-cost options.

How to

Identify low-cost internet providers and offer training to help older adults use them effectively.

Speaker for Older Adults
